Hike and Ski from Your Cottage

Five trails in the woods around Algonquin Park Access Point #1

Voyageur Quest · Kawawaymog Lake

Lace up and go. These old trails start a few minutes from our cottages and the Log Cabin, from a 1 km stroll to an 8.5 km loop. Check the live map at your cottage (scan the code), then take this sheet: signal fades past South River and there's none on the trails.

Live map (check at the cottage)

A **Moose Mountain Trail** — **2 km loop**

A steady climb over granite to big views of the lakes. Our guides' favourite. In winter, a great snowshoe climb.

B **Laurier Fire Tower Trail** — **2 km**

Tall hardwoods to the lookout where the old fire tower stood. Gentle at first, steep near the top.

C **Loxton Beaver Trail** — **8.5 km loop**

Pines, wetlands, and Loxton and Beaver lakes. A few climbs and wet spots. Bring lunch.

D **One-A-Day Trail** — **1 km**

An easy walk to One-A-Day Lake. The closest to the cottages, good for kids and an evening stroll.

E **Tom Thomson Portage Trail** — **2 km**

The old portage to Mary Jane Lake that painter Tom Thomson used to reach Algonquin.

In winter

Ski the trails or snowshoe to the top of Moose Mountain. Days are short: start by noon and carry a headlamp.

Before you go No signal on the trails: tell someone your route, and bring water, a snack and this sheet.

Trails cared for by volunteers of the Forgotten Trails Association. Distances are approximate.
